Blotske reviewed the requirements of the

RFQ with the team. The RFQ is due on April 1, 2016 at 10:00 AM. B. Blotske will email out the responses once they are received.

The group continued with general conversation on the field development project. R. Williams noted that a 10% Owner's contingency should be held within the overall project cost. D. Mehls noted the importance of all necessary approvals from Washington County and Baytown Township. D. Mehls directed B. Blotske to conduct research on any other sources of revenue that could be generated from the field development project so the group can understand how that revenue could be used to offset maintenance costs. J. Gutierrez noted that the field development project has been fully vetted through SCPA Administration Team. It was noted that the FSCPA Board Members would attend the next school board meeting.
